

# The cry from Mt. Sinai

The story I am about to tell you, you all should know,  
For it is the view of a late pharaoh ,  
It is about the prophet named Moses or Musa to some,  
Who devised the saying of “We shall Overcome”  
Few may not be familiar with a phrase such as this,  
But it was derived from the Bible’s book of exodus ,  
All throughout history books on evolution have raved,  
About how our ancestors caves,  
But few of us fail to realize there no truth in what they recite,  
Because all those who came from the caves were white,  
We also fail to realize how filthy they used to be,  
Cause they were also infected with leprosy,  
When Musa went into the caves to civilize those devils,  
He knew he to challenge some negative rebels,  
But he knew his capabilities, and knew there would be no harm,  
Because he entered the earthly hell with mental and physical bombs,  
The mental was the knowledge that he retained and conceived,  
He borned it nicely to the devils, but they refused to believe,  
All the wisdom he gave them they wanted to kill him, so they called him a liar,  
So around his physical he built a ring of fire.  
All those savages jumped back and were amazed,  
At the radiant heat of the civilizers blaze,  
They tried to understand but it was really hard,  
That a being such as this was sent by GOD,  
He was taught well before being sent to free those who were in bondage,  
To teach how to deceive the blackman with their grafted trick Knowledge.  
He also reminded him and told him twice,  
To teach them how live a respectful life  
So musa taught them because he was brave,

And he let the filthy out of the caves,  
So they were released in all vanity, And called their forbidden society humanity,  
and started a religion which is called Christianity,  
Musa told the devil don't go too far,  
Because you must remember "THAT GOD IS ALLAH"  
So he took to Mount Sinai in god's behalf,  
And they started worshipping the golden calf.  
And Musa said look at those savages now,  
The all eat the pork and worship the cow.  
I took I have to stop toying,  
It is about time I started destroying.  
I have tried to reason with them, but it is really hard,  
They failed to realize that God is Allah  
Now their mating with those ugly nuts,  
I know what I'll do, I'll blow them up,  
So he dropped his explosives while the devils sighed  
And all he heard was a terrible cry,  
From the hills that was known as Mount Sinai,  
When it was all over he said I tried,  
But Allah the merciful replied and sighed,  
"Don't Be hurt for all the prophets have tried."
